

Our website is gonna have some great stuff too.

Very nice!

For now we've just got a few articles and some social media stuff, but we're planning to add some live updating stats and things as well.

ooh!

Yeah, we're looking into getting live information on any spotted excurs, violence, venom spills, things like that. We've gotten in touch with the tech people at the National Excurvian Department, so hopefully that'll lead somewhere.

You know, that's not a bad idea. We should get some weather advisories on there.

It'll be good to let people know for the roads and such-

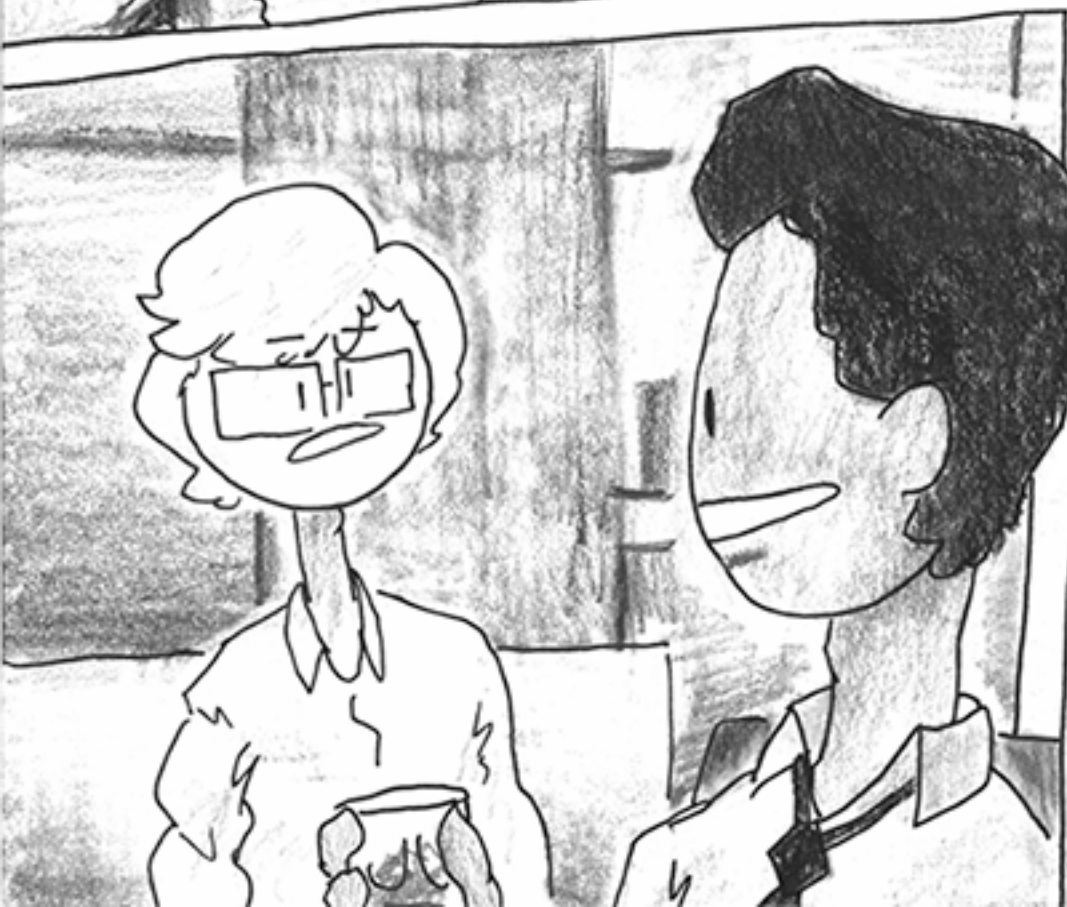

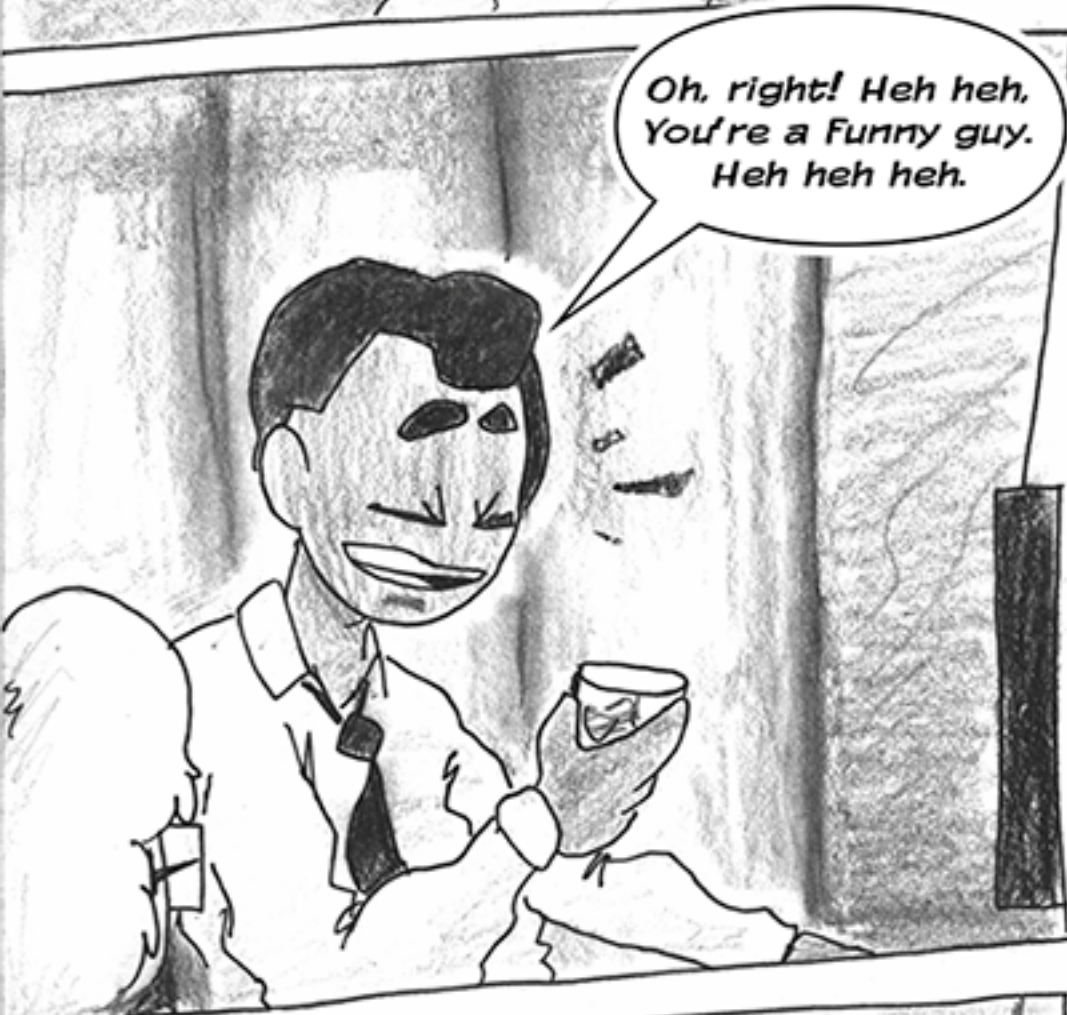

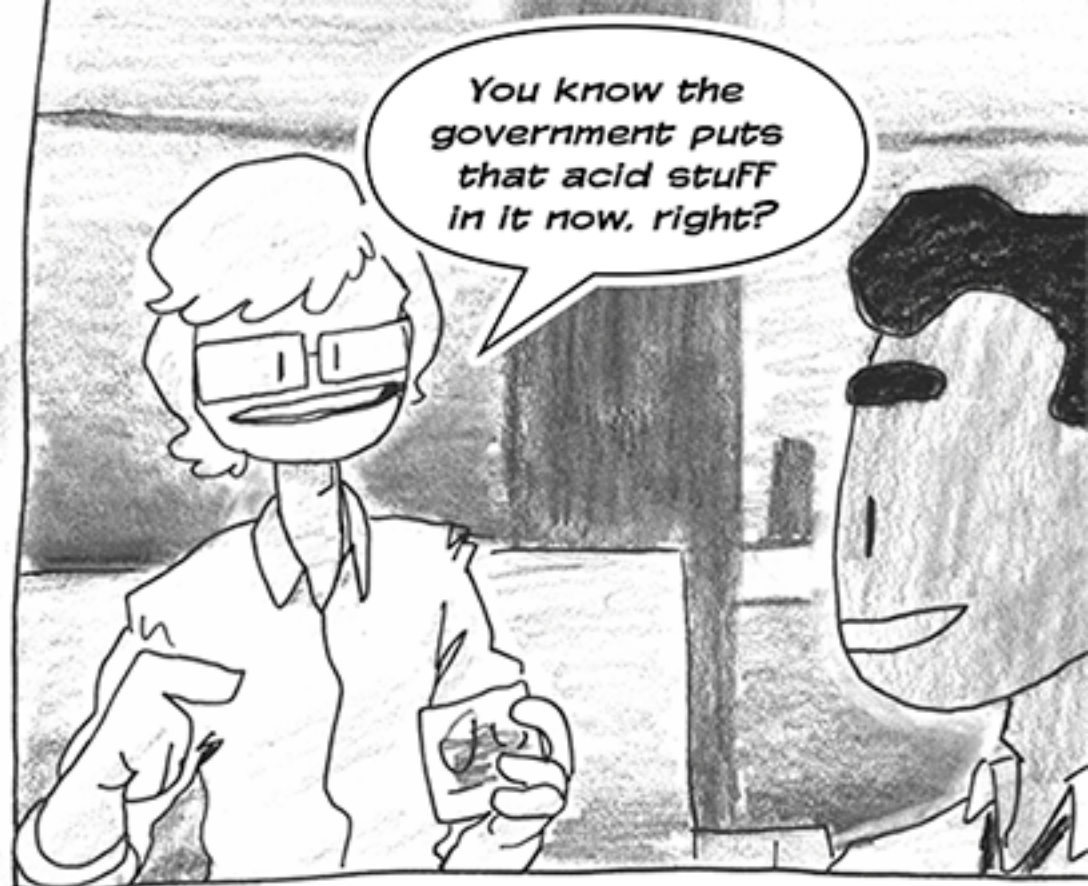

Very nice. You could also let people know when there's gonna be snow, too

Haha, yeah right!!

Heh, yeah, I suppose we don't really get enough snow around here anymore to warrant all that -

Alright!! Great!!!
So do you want to invite
them back in, and I'll show
them what we got??

No, that's alright.
I can show them these

Oh!! Well, um,
that's Fine!!!

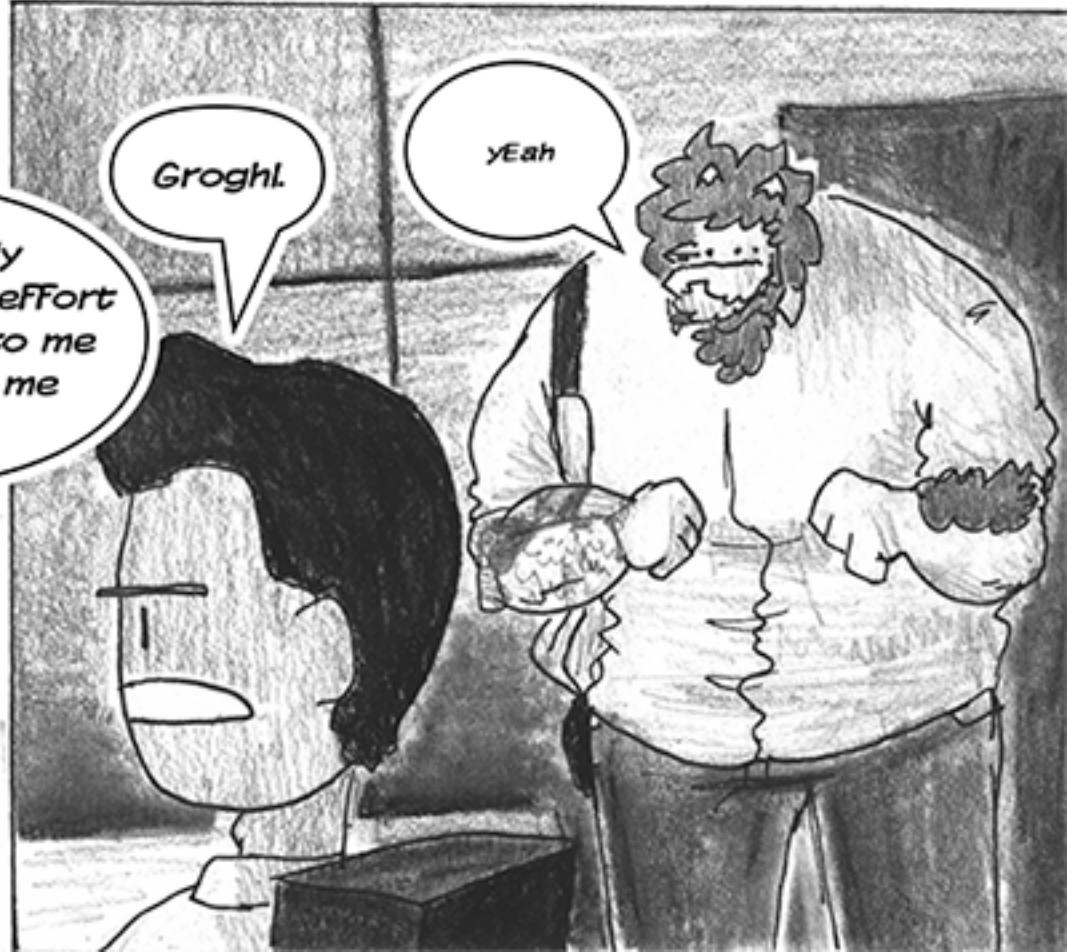

I can
just send them
to the editors now, uh,
if you want!! if you'll
just give me
the card

Actually, um,
you know what??
Just keep it, you
can email me the
pictures!!

Well uh, actually
it's probably more effort
to uh, send them to me
than to just give me
the card

Groghl.

yEah
